

## **Dementia Services Sutton**

Hilary Dodd / Michelle Blagrove

## What is Dementia?

- 1. Dementia is a set of symptoms including memory loss, mood changes and problems with communication and reasoning
- 2. Dementia is not a natural part of growing old
- 3. It is caused by disease of the brain
- 4. Dementia is an umbrella term for a range of progressive neurological conditions affecting the brain
- 5. The most common type is Alzheimer's but there are other types and variations
  - 6. Mainly affects people over 65

## **Dementia Support Service**

Since April 2024 Age UK Sutton have been the lead provider of Dementia Support Services in Sutton, working in partnership with Sutton Carer's Centre and Admiral Nurses, Adult Social Care, and Sutton ICB (health).

This comprised of a Dementia Adviser Service, and access to Dementia and Carer peer support

**From April 2025** the service will be known as The Dementia Hub. A virtual hub with a physical base at the Memory Clinic Monday – Wednesdays.

### **Dementia in Sutton**

### **Context: Sutton Dementia Strategy**

- An estimated 2,107 people aged 65+ have dementia
- 1,559 people (74%) have received a diagnosis
- An estimated 55-60 people in Sutton have Young Onset Dementia
- Both Young Onset Dementia and Dementia aged 65+ is expected to rise considerably by 2040

### **Dementia in Sutton**

**Context: Sutton Draft Dementia Strategy 2025 – 2030** 

Focus: Strategy is focused around supporting people affected by dementia to live well throughout their lives, with a timely diagnosis and the right support at the right place and time.

### Wide ranging:

- Preventing Well
- Diagnosing Well
- Living Well
- Caring Well
- Dying Well

## Dementia in Sutton – Dementia Strategy

**Early direction:** highlighted a need to improve post diagnostic support and provide a single point of access to people diagnosed with Dementia, their families and Carers.

Strengthening support once people receive their diagnosis was a common theme. People told the steering group that they also wanted staffing consistency and help to navigate their way into and between services.

Wide community engagement programme: Strategy focus groups highlighted a need for strengthening support once people receive their diagnosis

### **Timing:**

- To go the Sutton Health and Wellbeing Board in July
- Full implementation Timeline (2025-2030)

# The New Sutton Dementia Hub

### The Dementia Journey in Sutton 2024

### **The Dementia Hub - Aims**

- The aim of the Dementia Hub model is to ensure there is excellent post-diagnosis support available as and when it is needed this looks different for each person
- For people living with Dementia and their carers to have a service to self-access when they need it – drop-in and self-referral helpline access – ideally with a named person to contact
- A one-stop, single point of contact for any professional or the public to access to get information and advice about living well with Dementia
- Quality advice and support to access the type of care and support needed when its needed, including Day Centre information, wellbeing activities and at home or residential care information and advice

### **The Sutton Dementia Hub**

The service takes referrals from:

- ➤ Health and community professionals,
- >Self referrals and
- ≥3<sup>rd</sup> party referrals from family and friends

The service supports any person who lives in Sutton or has a GP in Sutton, and is living with symptoms or a diagnosis of Dementia or is caring for someone living with Dementia.

Referrals are triaged as to which service is required.

## How to make a referral

### Referrals can be made:

- Telephone: 020 8078 0002
- Email: dementiahub@ageuksutton.org.uk
- Contact Us form: Age UK Sutton | Make a referral
- In person: Sutton Gate, 1 Carshalton Road SM1 4LE
